RE: **Facility ID: FLR05G468**
Young-Rainey Star Center
County: Pinellas

Dear Permittee:

The Florida Department of Environmental Protection has received and processed your *Notice of Intent to Use Multi-Sector Generic Permit for Stormwater Discharge Associated with Industrial Activity* (NOI), and the accompanying processing fee, for the facility referenced above. This letter serves to acknowledge that your NOI is complete, your fee is paid-in-full, and your facility is covered under the generic permit effective **February 11, 2007**. Your coverage under the generic permit will expire **February 10, 2012**.

The *Multi-Sector Generic Permit* (MSGP) was issued under the provisions of Section 403.0885, Florida Statutes, and applicable rules of the Florida Administrative Code. **Stormwater discharge associated with industrial activity requires a permit under 40 CFR Part 122.26(a) (ii)**. This permit constitutes authorization to discharge stormwater associated with industrial activity to surface waters under the National Pollutant Discharge Elimination System (NPDES). Until this permit is terminated, modified or revoked, permittees that have properly obtained coverage under this permit are authorized to operate facilities and to discharge to surface waters in accordance with the terms and conditions of this permit.

Your facility identification number is FLR05G468. Please make reference to this number on all future correspondence including any checks made out to the Department.

This letter is not your permit. Your NOI allows you to discharge stormwater associated with industrial activities by complying with the terms and conditions of the MSGP, a copy of which you may obtain online at www.dep.state.fl.us/water/stormwater/npdes/industrial5.htm or by contacting the NPDES Stormwater Notices Center.

Your facility falls under Sector **AC** of the MSGP. Key provisions of the permit are (1) implementation of your storm water pollution prevention plan (SWPPP) that was required to be developed prior to NOI submittal, and (2) retention of records required by the permit, including retention of a copy of the SWPPP at the facility.

If your facility will continue discharging stormwater associated with industrial activity beyond expiration of the current coverage, request for continued coverage shall be made by filing a completed NOI at least 2 days before expiration of the current coverage period. If you discontinue discharging stormwater associated with industrial activity, are no longer the operator of the facility, or otherwise qualify to discontinue coverage under the MSGP, you may terminate permit coverage by filing a Notice of Termination of Generic Permit Coverage (NOT).

If you have any questions concerning this acknowledgment letter, please contact the NPDES Stormwater Notices Center at (866) 336-6312 or (850) 297-1232.

CERTIFICATE OF SERVICE

THE UNDERSIGNED HEREBY CERTIFIES that the foregoing acknowledgment of coverage under the Multi-Sector Generic Permit, Rule 62-621.300(5), F.A.C., was mailed by Science Applications International Corporation working under FDEP Contract Number WM788, on behalf of the Florida Department of Environmental Protection, on the date indicated below via the United States Postal Service.
